

European Printing Ink Association (EuPIA) – Exclusion Policy

Birla Carbon's carbon black products include all ASTM, BC, CD, Conductex®, Copeblack®, PM, Raven®, and Ultra® grades.

Since 1996, the printing ink industry in Europe has been committed to compliance with a voluntary common list for the exclusion of certain raw materials from printing inks and related products. This exclusion list of materials has been based on hazard classification and/or toxicological evidence available at the time, to protect the health of workers within the printing ink industry and customer facilities as well as to ensure the safe use of printed matter.

Birla Carbon confirms that neither its products nor its feedstocks are listed on the EuPIA Exclusion List for Printing Inks and Related Products.

The information presented within this publication is based on Birla Carbon's analysis and the analysis of others. Birla Carbon disclaims all representations and warranties regarding performance or use, express or implied, including implied warranties of merchantability and fitness for a particular purpose. The user is responsible for determining the suitability of any product for a specific purpose and the manner in which the product is used. Before handling, using, or processing any material, always read its Safety Data Sheet.
